Summary

The purpose of the Transition Assistance Advisor (TAA) Program is to provide Veterans with a professional in each State/Territory to serve as the statewide point of contact to assist in accessing Veterans Affairs benefits and healthcare services. Each TAA also provides assistance in obtaining entitlements through the TRICARE Military Health System and access to community resources. The TAA initiative started in May 2005 when the National Guard Bureau (NGB) signed a Memorandum of Agreement with the Department of Veterans Affairs (VA). For State specific TAA information, contact your State representative. TAA State representatives can assist transitioning Soldiers in accessing Veteran benefits, entitlements, healthcare services, and any other related services available to Servicemembers.
